## Printing colours \*

Visor: Pant.

- Declare all colors as pantone!

Display- and printcolours of the layout can be different to the pantone colours. Due to production reasons, colours of fabric and printing can be slightly diverse to the pantone colours.

1. Pantone

- Deliver the print data as vector

Convert text in vector also. - Minimum resolution for pictures

45 dpi in original size. 75 dpi and more would be perfect.

Production

- Differences because of the sewing are possible. We can not guarantee that colored areas are always parallel at the welds.
